

Services

Door-to-door service solutions.

We provide unparalleled door-to-door solutions for our customers at competitive prices. Our seamless connectivity allows customers to access any part of India right from their doorstep.

Warehousing & Inventory Management.

Our warehousing and inventory management division handles inventory holding levels, minimizes costs and bottlenecks, manages current and future stock requirements, maintains required service levels for internal and external customers and enhance upstream and downstream inventory visibility in the supply chain.

In-Plant Logistics.

We provide total logistical work within the plant right from gate-in to gate-out, including line-feeding.

LTL/FTL.

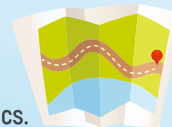

We have a deep understanding of less than truck load & full truck load logistics and handle end-to-end operations including multimodal transportation, carrier selection, freight segregation and optimal utilization of available space.

Services

Hub & Spoke Model.

We use the efficient hub & spoke model to move products out of strategically located distribution centers to shorten travel time. We optimize the model to help customers speed up deliveries, increase efficiency, reduce costAs and keep products moving.

Express Surface Cargo.

We are surface cargo experts with years of experience in handling consignments from all parts of India. Our vast logistics network uses an efficient hub & spoke model, to ensure that each consignment reaches its destination using the fastest and most reliable route possible.

Air-Cargo

Our air-cargo division multiplies transit options and simplifies the overall routing, all whilst keeping the end costs low.
